Description of Changes

TE Connectivity is revising the packaging for these products to comply with moisture sensitivity level 2a of JEDEC standard. TE Connectivity defines this packaging change as a change to the form of the supplied product packaging. Before the change products were not evaluated for moisture sensitivity level and were supplied in standard commercial packaging. After the change, products have been rated with moisture sensitivity level 2a and packaged accordingly. For those products with a new unit packaging quantity, customers will be notified via quotation of the new minimum order quantity.
